## Silver's Long Term 76.4% Support Still Under Pressure

UPDATE  
Technical

### WEEKLY CHART – CONTINUATION:

So far the long term 76.4% retracement has supported price dips, but it has again come under pressure – will it fail this time?

### DAILY CHART – Jul-14:

Price has so far found support from prior lows, but these are now under scrutiny again. A break lower would be a clear bear signal and call for lower targets. First resistance comes from the falling resistance line around 20.45.
