These powerful resistances above the market at 1.15 and above **reversed** the attempted bear Dollar/bull Euro market ...

The pressure is on the Euro now. **We favour a strengthening Dollar in the longer term.**

That is, a continuance of the trend from the beginning of 2018.

Expect the prior high to act as good support and ratchet the trend higher still.

Bulls should buy the break up through (and any re-approach to) 1.3012.

This is encouraging: note the completion of the Continuation Head and Shoulders.

Note too the push up through the Prior High at 3703.
