IMPLIED ASSET ALLOCATION

Dollar Euro monthly spot cash chart

These powerful resistances above the market at 1.15 and above have **reversed** the attempted bear Dollar/bull Euro market ...

The pressure is on the Euro now. **We favour a strengthening Dollar in the longer term.**

That is, a continuance of the trend from the beginning of 2018.

IMPLIED ASSET ALLOCATION

Dollar Sterling Monthly spot cash chart

All the Prior Pivotal lows of 1993, 2001, 2008 and 2016 have acted as good resistance. A massive Multiple Top has formed.

The latest rally back into the band of resistance from those lows has failed...

Watch and wait now for a break back beneath the Prior Low 1.1450 to set off the bears.

Dollar Sterling Monthly spot cash LINE CHART based on closes

Note here the possible bear continuation triangle.

A break beneath the lower diagonal would **accelerate the bear move** implicit in the massive bear formation in the long-term chart....wait for the monthly close.
