The sideways price action beneath 1.35 broke the diagonal Sterling downtrend resistance and forged ahead.

But note that the horizontal resistances the market ...have not yet been breached.

The Sterling bulls need a break above the Prior High @1.4376.

Dollar Sterling Monthly spot cash LINE CHART based on closes

Note the simultaneous completion of a BULL H&S (double headed) reversal pattern and the breaking of the DIAGONAL downtrend resistance...

The minimum move suggested is up to the 1.4240 Prior Low and Horizontal resistance .

That has been **achieved**.

Note well that a break of 1.42 would complete a Double Bottom reversal and **send the market higher still**. **BUT FOR THE MOMENT THE RESISTANCE THERE IS INTACT**
