## Currencies: Dollar Euro

**CURRENCIES:** There still a clear tendency for the currencies to weaken. The most telling chart situation is the push of the Yen through it's prior weakest ever level in the 1990s. If this move can be sustained ( it has failed here three times before, after all) expect a massive further surge in the value of the Dollar....

### Dollar Euro Monthly spot cash chart

In the long-term chart the Dollar bulls are encouraged by the multiple failures of the Euro to break above 1.10 – the big diagonal resistance at the bottom of the parallel channel.

### Dollar Euro weekly spot cash chart

Those **four** earlier failures are a lot clearer in this chart.

So the Dollar bulls are encouraged to begin to believe in a multiple top – if the latest rally in the Euro fails too...

When would it be confirmed? On a break beneath 1.05.

Not yet ...

### Dollar Euro spot cash chart daily chart...

In detail: this may be the beginning of a Euro sell off.

The broken horizontal support at 1.1017 and the broken diagonal support.... The market looks vulnerable.

But watch How the support from the Prior High at 1.0756 HAS HELD...

### Dollar Sterling Monthly spot cash chart

Bouncing hard off the 1.0520 pivotal low from the 1980s.

It's an impressive bounce.

### Dollar Sterling Monthly spot cash LINE CHART based on closes

And the bounce looks to have smashed through this band of resistance at 1.2144.

The market broke up through the resistance band, and closed above at the end of the month to confirm that, for the moment, the chart remains bullish for Sterling.

### Dollar Yen monthly spot cash chart

The market has failed at the near-term Prior High in 2022.

And the long-term prior High of 147 in 1988 has not been overcome.

To convince the Dollar bulls, the market has to break above that band of Highs.

So Bulls now need a close above 151.94. Close, but not yet.

### Dollar Yen weekly spot cash chart

Bulls need a close above the 151.94 to convince.

On the other hand a third failure here would be very bearish!

**Stand back and watch the price action at the pivotal band from the Prior Highs 148.74-151.94.**

Nonetheless, cautious bulls will still stand back and wait for a clear break of the Prior High at 1.1758.

## Stocks: CME S&P

**STOCKS:** Again another surge in the US , Europe and Japanese stock markets. Most crucial of all is the Nikkei, sitting close above the all time prior High of 1989 of 39600. If this level can be sustained then the market will use that Prior High as support and drive higher still. The other markets will move ahead too.

### Nikkei 225 CONTINUATION chart (Quarterly)

The market has completed a **complex but identifiable long run bull H&S reversal pattern** driving the market up to 40000 or so (measured on a linear chart.)

**BUT NOTE THE TESTING of the all time high of 39600. That is a MAJOR point of reference.**

### Nikkei 225 chart (WEEKLY continuation)

Note the break up through 30720 - the retest and solidity of that old high as support **was a signal to add on bull positions.**

(Note especially the Weekly Key Reversal on the second retest of the Prior High 30720)

### Nikkei 225 chart weekly March 2024 Future.

The clear H&S continuation pattern that has completed and completed the minimum measured move up as far as 37500.

We've got there – expect a diminution of the bull influence of the H&S pattern.

### Nikkei 225 chart Daily March 2024 future.

The break above 33750 was the short-term signal.

Watch the price action closely – the bulls have a break and close above 36980.

BUT NOTE WELL THE CLOSE APPROACH OF THE ALL TIME HIGH ( MONTHLY CHART) AND THE EXHAUSTION OF THE H&S PATTERN IN THE WEEKLY CHART.
