CURRENCIES: The stronger Dollar is central to the currency charts: against the Euro it is poised to compete a major bear Euro pattern. Against the Sterling there is less pressure, but still downward. The Yen is under pressure too but less clearly close to completing a major pattern. Not the associated rise of Sterling against the Euro and the proximity of a breakout there.

Dollar Euro weekly spot cash chart

The sideways consolidation now looks close to the completion of a large Double Top.

Watch now for a break beneath the low at 104.47 which would surely be the completion.

Dollar Sterling Quarterly spot cash chart

Bouncing hard off the 1.0520 pivotal low from the 1980s.

It's an impressive bounce.

Dollar Sterling Monthly spot cash **LINE CHART** based on closes

And the bounce smashed through this band of resistance at 1.2144.

The market broke up through the resistance band, and closed above at the end of the month to confirm that, for the moment, the chart remains bullish for Sterling.
